DIRECTOR OF CENTRAL INTELLIGENCE  
Intelligence Information Handling Committee  
WASHINGTON, DC 20505

LOGGED

IHC/MM 84-92  
27 November 1984

MEMORANDUM FOR: GISS Members

FROM:

Executive Secretary, Intelligence  
Information Handling Committee

SUBJECT: Proposed Video Disc Standards

1. Attached is an expanded version of the original draft standards for video disc-based maps which you helped to develop earlier this year. It includes additional information which may or may not be necessary to the standard; however, I would like to have your comments and suggestions as to what you feel should be retained, eliminated, and/or revised from this revised draft.

2. Our original standards are reflected in DMA's request for proposal (RFP) to produce video discs, with the specifics of the video disc control software to be determined by DMA when they let a contract within the next few weeks. It is anticipated that the first video disc-based maps will be produced within the next three to four months.

3. I would appreciate your review and comments on this draft by 14 January 1985. If you have any questions, please call me at  or  (secure).

Attachment: a/s
